RIDICULOUSLY SCARY. SERIOUSLY FUN.

CANYON SWING

It's perfectly normal to feel nervous jumping off a cliff, but boy is it fun!

The freefall is intense, lasting just a bit longer than you think it should. Then, when the swing kicks in it's smiles from ear to ear.

Is it worth it? Hell yeah it is. So much so that you will want to do it all over again!

109M HIGH

60M FREEFALL

200M SWING

SMOOTH TRANSITION

HOW IT WORKS

After leaping or being released from the platform you'll freefall 60 metres, rushing past the rocky cliff so close you will think you could touch it.

Then it's a super-smooth transition from freefall to swing, soaring above the river below. Once you've stopped swinging, we'll bring you back up to where it all began.

"INSANITY TO SERENITY IN 10 SECONDS"
CALLUM, BEIJING

"NOTHING ELSE COMES CLOSE"
BEN, AUSTRALIA

"EVEN MY SHIT WAS SCARED!"
DREW, UK

WE DO FUN STUFF LIKE THIS!

ABOUT US

We are the world's first commercial Canyon Swing. In 2002 we launched the Shotover Canyon Swing, invented and built by two locals who simply wanted to share the thrill of cliff jumping with their mates. Ever since, we've been having fun scaring and throwing people off our swing.

SO WHY CHOOSE US?

- 15 minutes from town - transport included
- Small groups with regular trips
- Jump yourself or be released
- Heaps of crazy Swing Styles
- Go Solo or Tandem
- Deals on Second Swings
- Only 2.5-hour round trip
- Spectators welcome
- We operate rain, hail and shine
- A Queenstown must-do!
